## TO CUSTOMER

At Tekance, we're dedicated to your success. With over 8 years of experience in CAD and BIM services, we know the challenges you face in design and construction. Our tailored solutions are designed to meet and exceed your expectations, ensuring precision and efficiency in every project.

Thank you for trusting Tekance as your partner. We look forward to continuing to support your vision and helping you achieve excellence in your projects.

## OUR PRIORITY IS QUALITY

At Tekance, quality is our top priority. We ensure precision and excellence in every CAD and BIM project, delivering flawless results from start to finish. By focusing on quality, we help you avoid errors, streamline processes, and achieve outstanding outcomes. Your success begins with our commitment to quality.

## OUR HISTORY

With over 8 years of experience, we began our journey as a freelance CAD & BIM service provider. What started as a solo endeavor has now grown into a dedicated team of over 15 skilled professionals. Our expertise in CAD and BIM services has expanded alongside our team, allowing us to deliver comprehensive solutions that drive efficiency and innovation in design and construction projects. Today, we pride ourselves on being a trusted partner in the industry, offering top-notch services that meet the evolving needs of our clients.

## WHAT WE DO

### BIM STRATEGY & INTEGRATION

We work closely with your team to develop and implement a customized BIM strategy, ensuring seamless integration across all project stages. This approach enhances collaboration, reduces errors, and drives project efficiency from design to construction.

### PROJECT CONSULTING & OPTIMIZATION

Our experienced consultants analyze your current workflows and processes, identifying areas for improvement. We then provide actionable recommendations to optimize your project delivery, reduce costs, and increase overall efficiency.

### SOLUTIONS

We offer comprehensive training programs and ongoing support to empower your team with the skills and knowledge needed to maximize the potential of CAD and BIM tools. Our goal is to ensure your team can confidently manage projects with cutting-edge technology.
